情况说明

尊敬的贝克曼库尔特客户:

叶酸测定试剂盒（化学发光法）中文说明书中参考区间章节中两处文字性书写错误说明如下:

如下图所示"4 血清叶酸: 通过对 311 份应该正常受试者(叶酸强化食品并为普遍推广的人群)的血清样本进行测定建立预期范围。" 以及 "5.红细胞叶酸: 通过对 109 份英国正常受试者（叶酸强化食品并为普遍推广的人群）的全血样本进行测定建立预期范围。" 两句中"为"字是书写/翻译错误，应为"未"字。

请见后附英文说明书截图，并且在中文说明书下图 "注意"部分，也明确以上数据来源于英国正常受试者人群，该人群**未**进行食品叶酸强化。

图 1 中文说明书部分截图

4. 血清叶酸：通过对 311 份英国正常受试者（叶酸强化食品并为普遍推广的人群）的血清样本进行测定建立预期范围。正常值范围从 1.6 至 大于 24.8ng/mL (3.6 至>56.2nmol/L)。本研究的双侧、非参数 90%参考范围：

单位	参考范围
ng/mL	3.1~19.9
nmol/L	7.0~45.1

世界卫生组织叶酸和维生素 B_{12} 缺乏技术顾问组确定将叶酸缺乏标准定为叶酸浓度小于 4ng/mL（10nmol/L）[18]。

5. 红细胞叶酸：通过对 190 份英国正常受试者（叶酸强化食品并为普遍推广的人群）的全血样本进行测定建立预期范围。正常值范围从 105 至大于 903ng/mL 压积红细胞 （RBCs）(238 至>2046nmol/L)。本研究的双侧、非参数 90%参考范围：

单位	参考范围
ng/mL	140~836
nmol/L	317~1894

注意：叶酸及 RBC 叶酸的期望值仅作为指导。以上数据来源于英国正常受试者人群，该人群未进行食品叶酸强化。

图2 英文说明书部分截图

4. **Serum Folate:** Sera from 311 normal subjects from the United Kingdom (a population where foods are not commonly fortified with folic acid) were assayed to establish expected ranges. The normal values ranged from 1.6 to greater than 24.8 ng/mL (3.6 to > 56.2 nmol/L). The two-sided, non-parametric 90% reference range of this study is:

Units	Reference Range
ng/mL	3.1 to 19.9
nmol/L	7.0 to 45.1

The WHO Technical Consultation on folate and vitamin B_{12} deficiencies has determined that deficient folate concentrations are considered to be less than 4 ng/mL (10 nmol/L).[15]

5. **Red Blood Cell Folate:** Whole blood samples from 190 normal subjects from the United Kingdom (a population where foods are not commonly fortified with folic acid) were assayed to establish an expected range. The normal values ranged from 105 to greater than 903 ng/mL (238 to > 2,046 nmol/L) packed red blood cells (RBCs). The two-sided, non-parametric 90% reference range of this study is:

Units	Reference Range
ng/mL	140 to 836
nmol/L	317 to 1,894

Note: The folate and RBC folate expected values should only be considered as guidelines. Data was obtained on normal subjects in the United Kingdom where folic acid fortification of foods does not occur.

特此说明，给您造成的不便敬请谅解，衷心感谢您对我公司产品的支持与信赖！
